All – general discussion on budget line by line. All are in agreement to have the Blue Leaf Study done as long as it fits within the approved budget. Reviewed the drainage issue at the Red Fox parking area will be keeping an eye on the situation and make decisions based on findings. All in all the budget is in line with last year's but we may be looking at some larger funding issues but based on timing and funding may review at a later date such as the tank inspections and requirements. Scott will make the changes discussed and pass on to Francine.

All – general discussion regarding the Meserve Brook needs – need to have the advice of an engineer. Scott will get back to everyone with the go forward plan. We had talked about having the corners marked but before we do that there is more research needed. This will include marking the corners of JWP boundary with those on Green Hill Rd.
